A good office environment is an intuitive reflection of enterprise management level.

3D打印模具存储架

3D打印模具存储架，用于存放各种规格、颜色、形状的3D打印模具。该架采用金属材质，结构稳固，承重能力强。架体设计简洁大方，易于操作。模具按照规格、颜色、形状进行分类存放，方便查找和取用。该架适用于各种3D打印模具的存储，是实验室、工厂、学校等场所的理想选择。

SAMPLE CENTER

Diversified sample inventory | Creative display

• R&D achievements are clearly presented

R&D achievements

- Mold storage in multiple specifications
- Creative modeling series
- Categorized sample display
- Intuitive presentation of R&D results

A rich sample library supports customers in quick selection and solution confirmation.

PRODUCTION WAREHOUSE

Standardized material management | Efficient production lines

Example: Warehouse and production lines

- Materials are stacked neatly
- Aisles remain clear
- Aisles remain clear
- Warehouse identification is visible
- Production flow is controllable
- Delivery reliability is improved

A standardized warehouse environment ensures production efficiency and delivery stability.
